An Attractive, Low Profile Design Leading the Way Towards Business Success

Casio's single station models, the TE-900 and the TK-950, provide an affordable and flexible solution for retail shops, restaurants or a combination of both. The stylish cabinet design, cabinet color and easily recognizable operator display lends itself to highly visible areas in your business. The TE-900 allows you to departmentalize easily your most common item categories and the TK-950 offers a large flat keyboard to place your most frequent sold items on keys for speed and accuracy.

Advanced Technology in a Compact Design to Enhance a Variety of Business Applications

Economical, Reliable Cash Registers for Today's Demanding Environments

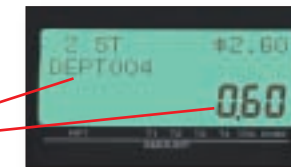

The Casio TE-1500 and the TK-1550 models with large heavy duty metal cash drawer and two (2) serial ports provide flexibility for those more demanding operations in retail and hospitality applications. The two (2) station drop and load thermal printer allows a detail copy of the transaction for the customer and another for the store's records. The stylish cabinet design, cabinet color and easily recognizable operator display lends itself to highly visible areas in your business. The TE-1500's allows you to departmentalize easily your most common item categories and the TK-1550 offers a large flat keyboard to place your most frequently sold items on keys for speed and accuracy.
